### COMMUNITY HEALTH ASSESSMENT RELEASED

**STEUBENVILLE, OH** – The Jefferson County General Health District (JCGHD) is pleased to announce the released of the 2022 Community Health Assessment (CHA). The CHA exemplifies a powerful collaboration between the JCGHD, Trinity Health System and a number of key community stakeholders. The results in this CHA signify a beginning rather than an ending, and the JCGHD is looking forward to helping address the health issues in Jefferson County with our fellow community partners.

A tremendous wealth of community assets and health resources exist in Jefferson County, yet health disparities are clearly experienced by our residents. Through continued collaborative efforts, JCGHD will strive to positively impact the community in which our residents live, work, learn and play. The results of the CHA indicate that there is a long road ahead; however, the health issues in Jefferson County are resolvable through cross-sector cooperative action, trust, communication and collective desire to better the lives of our beloved county.

Copies of the 2022 CHA are available at the JCGHD located at 500 Market Street, 6th Floor, Steubenville. The JCGHD has requested Public Library of Steubenville and Jefferson County branches make the document available as well. You may also visit [jchealth.com](http://jchealth.com) to access the electronic copy.
